THE SIGN OVER YOUR DOOR

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, it would interest you, would it not?

THE DIRECTORY

is where people look for you when they want to do business. You should make it easy for them to find you by putting such information as the buyer wants in the Directory, properly indexed under all the headings where he might look for you.

To be properly registered costs less than to be left out.

The impression that we are "well known" or that "everybody knows us" is a common fallacy of the mind. Experts have studied the actual facts by practical questions aimed at the public. Their finding is this: The best known business man is only one-half as well known as he thinks he is.

Do not let this fallacious reasoning take a toll from YOUR business—advertise it.

It Bridges the Stream of Error

An order has come in carelessly written and the street is not surely indicated, or the name is uncertain.

Then the Directory—The CITY DIRECTORY with its COMPLETE DETAIL of the city, is the only way for you to clear up the situation.

Remember how often "Hatch" sounds like "Patch," or "Haibon" sounds like "Aborn," and how hard it is to be sure after the informant is gone.

This is why **All Merchants** keep the **Directory** at work for them. It saves its cost many times over.

That is why **live, socially prominent men and women** have the **Directory** at home. It saves so many embarrassments.

PREFACE

The Thirty-second volume of the City Directory includes the towns of Manchester and Essex. Names in the towns in the Beverly district are enumerated with the same door-to-door care as the city and taken in alternate years. The net population of Beverly shows an increase as indicated by additional matter taking approximately 362 lines in the new volume in excess over the last issue and the general directory contains 61% new or changed matter as compared with the previous issue. In the street directory of Beverly and the towns a special indicator (⊙) marks property owners—a modern feature, established in 1933, also the locations of telephones are shown by an asterisk (*).

Separate Maps of Beverly, Manchester and Essex are included with this volume.

The publishers acknowledge their indebtedness to all who have supplied information and to the advertisers whose patronage assures the city of its annual directory service.

PRODUCING THE PRODUCTIVE

INTRODUCTION

Probably no city in the Commonwealth blends the old and new as well as does Beverly. Founded in 1626, Beverly has handed down to its present generation a worthy heritage of tradition and history. Not until 1900, however, did Beverly begin to show a rapid growth. Since then it has doubled in population. The recent census places Beverly slightly over the 25,000 population class. It may be truthfully said that Beverly today presents the characteristics of a modern city, while retaining the best from the customs and traditions of the past. Let us in brief innumerate the reasons why Beverly is one of the best cities in our Commonwealth.

CITY OF BEVERLY
STREET AND HOUSE DIRECTORY
1935

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. †The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers, every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no number, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc. Houses having erroneous numbers are sometimes enclosed in parentheses (—).

* Indicates telephones.

† Exceptions to this rule occur occasionally.

CROWLEY & LUNT'S
CITY OF BEVERLY
BUSINESS DIRECTORY
1935

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its continuous growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of nearly $50,000,000, within its limits are scores of palatial estates, all year round, or summer villas chosen by the wealth of the nation because of the sheer beauty of this coast. The manufacturing industries comprise machinery, shoes, oil, oiled clothing, iron foundries, mattresses, planing mills, grain elevators, electric works, etc. The shoe industry, established more than a century ago, pays a large annual wage.

The United Shoe Machinery Corporation occupying one of the largest reinforced concrete factory plants in the world and employing 5,000 expert mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its large steamships running from Port Arthur, Texas. Spur tracks of the Boston and Maine Railroad connect with all the wharves. Population of Beverly, 1935, estimated about 31,000. Eighteen miles from Boston on the Boston & Maine Railroad; Eastern Mass. Bus and Street Railway connections to all nearby points. Superior harbor. Three banks. Daily newspaper. Superior fire department. Good sewers. Super-lighted streets. First-class public schools. Good hotels and theatres. Public school playgrounds costing over $50,000. Modern bath house at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

***Patrons' insertions only under headings with asterisk.**

The impression that we are "well known" or that "everybody knows us" is a common fallacy of the mind. Experts have studied the actual facts by practical questions aimed at the public. Their finding is this: The best known business man is only one-half as well known as he thinks he is.

Do not let this fallacious reasoning take a toll from YOUR business—advertise it.

Street and House Directory

1935-'36

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect.

The cipher (0) is used to designate houses or buildings without numbers, showing the names of heads of families and persons in business in the order of location. The dash (—) is used to show where connecting streets and avenues cross or intersect, and also to designate railroad crossings, bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc.

* Indicates telephones.

⊙ Property ownership (recorded on village property only, not on country roads).
